SAFQUAL UK Level 3 Award in

Fire Safety Risk Assessment & Control

SafQual

Overview:

This qualification helps candidates to develop their existing knowledge of workplace fire safety. It provides a thorough understanding of the formal fire risk assessment process for non-complex, low or normal risk premises.

Responsible persons who wish to carry out their own fire risk assessment, or are appointed to assist with this duty.

It is particularly useful for business owners, managers and supervisors, but will benefit anyone contributing to the fire risk assessment process.

Who is this for ?

Fire Safety Officers & Fire Risk Assessors: Conducting risk assessments and ensuring compliance.

Health & Safety Managers: Overseeing fire safety protocols within an organization.

Facilities & Building Managers: Implementing fire prevention strategies in workplaces.

Supervisors & Team Leaders: Managing fire safety responsibilities.

Fire Wardens & Marshals: Enhancing fire safety knowledge and control measures.

Construction & Industrial Safety Personnel: Preventing fire hazards in high-risk environments.

Anyone Seeking Advanced Fire Safety Knowledge: Ideal for those pursuing a career in fire risk assessment.

Assessmtent:

Written Examination: Multiple-choice and scenario-based questions.

Practical Fire Risk Assessment Report: Conducting a real-world fire risk assessment.

Case Study Analysis (if applicable): Application of fire risk management principles.

Duration:

Typically 3 to 5 days, depending on the training provider and learning format (classroom, online, or blended learning).

3-5 DAYS

Validity :

The certification is valid for 3 years, with refresher training recommended to maintain fire safety awareness.
