

The background of the entire page is a collage of construction-related images. At the top, two workers in white and orange hard hats and high-visibility vests are seen from behind, looking towards a construction site. At the bottom, two workers, one in an orange vest and one in a green vest, are smiling and looking at each other while holding blueprints. On the far left, a hand is visible writing on a clipboard. The central text is set against a large blue diagonal band.

SAFQUAL UK Level 3 Award in Workplace Construction & Process Safety

Overview:

The Level 3 Award in Workplace Construction & Process Safety Management is designed to provide individuals with advanced knowledge and skills in managing safety within construction and process industries. This course focuses on developing a comprehensive understanding of safety management systems, risk assessment strategies, regulatory compliance, and effective safety leadership.

Who is this for ?

Supervisors & Team Leaders: Those managing workplace safety in construction and industrial settings.

HSE (Health & Safety) Officers: Professionals responsible for implementing and enforcing safety policies.

Site Managers & Engineers: Those overseeing worksite operations and worker safety.

Process Industry Professionals: Employees in manufacturing, chemical processing, and related industries.

Contractors & Subcontractors : Workers responsible for ensuring compliance with safety regulations.

Anyone Seeking Career Growth in Safety Management : Ideal for those aiming for senior safety roles.

Assessment:

This qualification is evaluated using assessments and Multiple-Choice Questions (MCQ). To receive this qualification, the learner must pass both tests with a certain percentage.

Duration:

The qualification has recommended course duration of 5 days.

Note: However the course duration may be increased to meet additional learning needs if required but not reduced.

Validity :

The certification is valid for 3 years, after which a refresher course may be required.

Modules

The course modules for the Level 3 Award in Workplace Construction & Process Safety Management may include:
