

SAFQUAL Award in Control of Substances Hazardous to Health

Overview:

The SAFQUAL Award in Control of Substances Hazardous to Health is a specialized training program designed to provide participants with essential knowledge and skills for managing hazardous substances in the workplace. This course offers a practical understanding of the specific hazards and risks associated with hazardous substances, as well as the regulatory requirements and industry best practices to mitigate them effectively. Participants will learn how to identify, assess, and control hazardous substances to promote a safe and healthy working environment for all personnel involved.

Who is this for ?

The Award in Control of Substances Hazardous to Health (COSH) course is suitable for:

- **Workers handling chemicals:** Anyone who works with or around hazardous substances in industries like manufacturing, construction, cleaning, and healthcare.
- **Supervisors & managers:** Those responsible for workplace safety and compliance with health regulations.
- **Lab technicians & engineers:** Professionals working with chemicals, solvents, or hazardous materials.
- **Cleaning & maintenance staff:** Those using cleaning agents and industrial chemicals.
- **Anyone needing COSHH awareness:** Employees required to follow COSHH regulations as part of their job.

This course is ideal for anyone looking to understand how to safely handle, store, and manage hazardous substances in the workplace.

Assessment:

The qualification is evaluated using assessments. To receive this qualification the learner must pass test with 70%.

Duration:

The qualification has a recommended course duration of 7 days.

Note: However the course duration may be increased to meet additional learning needs if required but not reduced.

Validity :

This certification is valid for a life time
