

# SAFQUAL Level 3 Award in Work at Height Safety Management

## Overview:

The Level 3 Award in Work at Height Safety Management is an advanced program designed for professionals in leadership and managerial roles. This course provides an in depth exploration of the intricacies of managing work at height operations, emphasizing the importance of safety leadership, regulatory compliance, and risk management. Participants will gain the expertise required to create and oversee comprehensive work at height safety programs, ensuring the well being of workers operating at elevated locations. Through a combination of theoretical instruction, case studies, and practical exercises, attendees will develop the competency to lead and champion a culture of secure work practices in environments involving working at height.

## Who is this for ?

- **Health & Safety Managers:** Overseeing work at height operations and compliance.
