

SAFQUAL Award in Scaffolding Supervisor

Overview:

The Award in Scaffolding Supervisor is designed to provide individuals with the necessary skills and knowledge to effectively supervise and manage scaffolding operations. This course covers a range of topics, including safety regulations, planning and organizing scaffolding projects, and supervising the erection and dismantling of scaffolding structures. Participants will develop a comprehensive understanding of their responsibilities as a scaffolding supervisor and learn how to ensure compliance with industry standards and best practices.

Who Is This For?

This certification is ideal for:

- **Contracts Managers:** Individuals responsible for managing scaffolding contracts and ensuring project adherence to safety and quality standards.

- **Site Managers and Supervisors:** Personnel overseeing on site scaffolding activities, ensuring that all operations comply with health and safety regulations.
- **Estimators and Scaffold Designers:** Professionals involved in planning and designing scaffolding structures who require a comprehensive understanding of supervisory responsibilities.
- **Foremen and Non working Chargehands:** Experienced scaffolders transitioning into supervisory roles, responsible for leading teams and managing daily scaffolding tasks.

Duration:

The qualification has recommended course duration of 5 days.

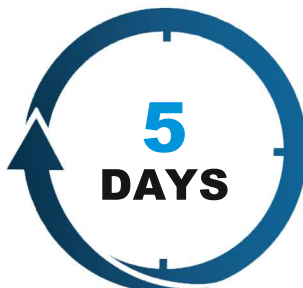

Note: However, the course duration may be increased to meet additional learning needs if required but not reduced.

Assessments:

The qualification is evaluated using assessments. To receive this qualification the learner must pass test with 70%.

Validity:

This certification is valid for a life time
