

SAFQUAL Award in Safe Scaffolding Erection, Dismantling & Modification

Overview:

The Award in Safe Scaffolding Erection, Dismantling & Modification is a specialized training program designed to provide individuals with the skills and knowledge required to safely erect, dismantle, and modify scaffolding structures. This course emphasizes best practices, industry regulations, and risk management techniques specific to scaffolding operations. Participants will learn the necessary techniques for ensuring the structural integrity and stability of scaffolding systems while maintaining a safe working environment.

Who Is This For?

This course is ideal for:

- **Scaffolding Erectors:** Individuals directly involved in assembling and dismantling scaffolding structures.
- **Scaffolding Inspectors:** Professionals responsible for inspecting scaffolding to ensure compliance with safety standards.
- **Safety Officers:** Personnel overseeing safety protocols on construction sites.
- **Supervisors and Managers:** Those managing or supervising scaffolding operations.

Duration:

The qualification has recommended course duration of 5 days.

Note: However, the course duration may be increased to meet additional learning needs if required but not reduced.

Assessments:

The qualification is evaluated using assessments. To receive this qualification the learner must pass test with 70%.

Validity:

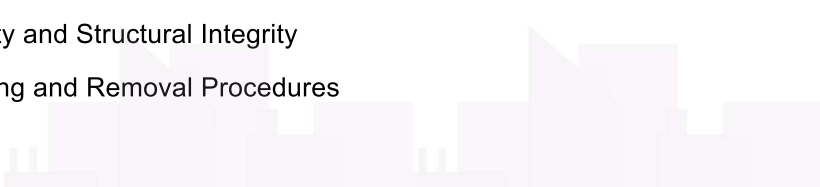

This certification is valid for a life time.

Modules

The course modules for Award in Safe Scaffolding Erection, Dismantling & Modification course may include:

- Introduction to Safe Scaffolding Practices
- Legislation and Regulations for Scaffold Operations
- Roles and Responsibilities of Scaffolders
- Scaffold Types and Components
- Scaffolding Tools and Equipment
- Scaffold Erection Procedures and Techniques
- Scaffolding Stability and Structural Integrity
- Scaffold Dismantling and Removal Procedures

- Modification and Adaptation of Scaffolds
- Load Capacities and Weight Distribution
- Risk Assessment and Hazard Identification
- Fall Protection and Safety Measures
- Communication and Signaling on Scaffolds
- Inspection and Maintenance of Scaffolding
- Emergency Response and Rescue Procedures

Why Choose Us?

Led by Industry Experts: Learn from experienced height safety professionals.

Practical & Real World Training: Hands on exercises and case studies.

Flexible Learning Options: Classroom, online, blended learning.

Essential for Workplace Safety & Compliance: Helps prevent accidents and ensures regulatory adherence.

Boosts Career Advancement: Valuable for supervisors, managers, and trainers.
