

SAFQUAL Award in Scaffolding for Manager

Overview:

The Award in Scaffolding Managers is a comprehensive training program designed for individuals aspiring to become proficient scaffolding managers. This course covers a wide range of topics, including advanced safety regulations, project management, budgeting, and leadership skills. Participants will learn how to effectively plan, supervise, and manage complex scaffolding projects, ensuring compliance with industry standards and regulations. This course is ideal for those seeking career advancement in the scaffolding industry or aiming to take on managerial roles.

Who Is This For?

This course is specifically tailored for:

- **Scaffolding Managers:** Individuals responsible for planning, coordinating, and overseeing scaffolding projects.
- **Project Managers and Site Supervisors:** Professionals who manage construction sites where scaffolding is utilized and need to ensure compliance with safety standards.

- **Health and Safety Officers:** Personnel tasked with implementing and monitoring safety protocols related to scaffolding operations.

Duration:

The qualification has recommended course duration of 5 days.

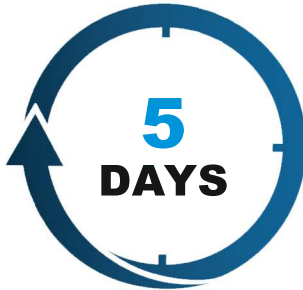

Note: However, the course duration may be increased to meet additional learning needs if required but not reduced.

Assessments:

The qualification is evaluated using assessments. To receive this qualification the learner must pass test with 70%.

Validity:

This certification is valid for a life time.
