

## Overview:

The Award in Train the Trainer – Scaffolding is designed to equip individuals with the necessary skills and knowledge to become effective trainers in the field of scaffolding. This course focuses on providing participants with the tools and techniques to deliver high-quality training sessions, ensuring safety and efficiency in scaffolding operations. Participants will learn about instructional design, communication strategies, scaffolding principles, and best practices for training delivery. The course emphasizes practical exercises and interactive learning to enhance participants' ability to train others effectively.

### Who Is This For?

This course is ideal for:

**Experienced Scaffolders:** Professionals aiming to transition into training roles within the scaffolding industry.

Safety Officers and Supervisors: Individuals responsible for

overseeing scaffolding operations and ensuring compliance with safety standards.

**Training Managers:** Personnel tasked with developing and delivering in-house scaffolding training programs.

#### **Duration:**

The qualification has recommended course duration of 7-10 days.

*Note:* However, the course duration may be increased to meet additional learning needs if required but not reduced.

#### Assessments:

This qualification is evaluated using assessments and Multiple-Choice Questions (MCQ). To receive this qualification, the learner must pass both tests with a certain percentage.

#### Validity:

The certification is **typically valid for 3 to 5 years**, depending on the training provider. A **refresher course** is required for renewal to stay updated with industry standards.
