

# SAFQUAL Level 3 Award in Scaffolding Safety

## Overview:

The Level 3 Award in Scaffolding Safety is an advanced course designed for individuals who want to enhance their knowledge and skills in scaffolding safety. This course provides participants with a deeper understanding of complex scaffolding systems and focuses on advanced safety practices and regulations. Participants will learn about scaffolding design, risk assessment, advanced inspection techniques, and the management of scaffolding projects.

## Who Is This For?

This course is ideal for:

- **Scaffolding Inspectors:** Individuals tasked with assessing scaffolding systems to ensure they meet safety and regulatory standards.
- **Site Supervisors and Managers:** Professionals overseeing construction projects who need to verify that scaffolding practices adhere to safety protocols.

- **Health and Safety Officers:** Personnel dedicated to monitoring and enforcing safety standards related to scaffolding operations.
- **Experienced Scaffolders:** Skilled workers aiming to advance their careers by specializing in scaffolding inspection and safety.

### Duration:

The qualification has recommended course duration of 7 days.

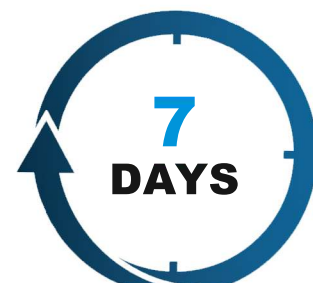

*Note:* However, the course duration may be increased to meet additional learning needs if required but not reduced.

### Assessments:

The qualification is evaluated using assessments. To receive this qualification the learner must pass test with 70%.

### Validity:

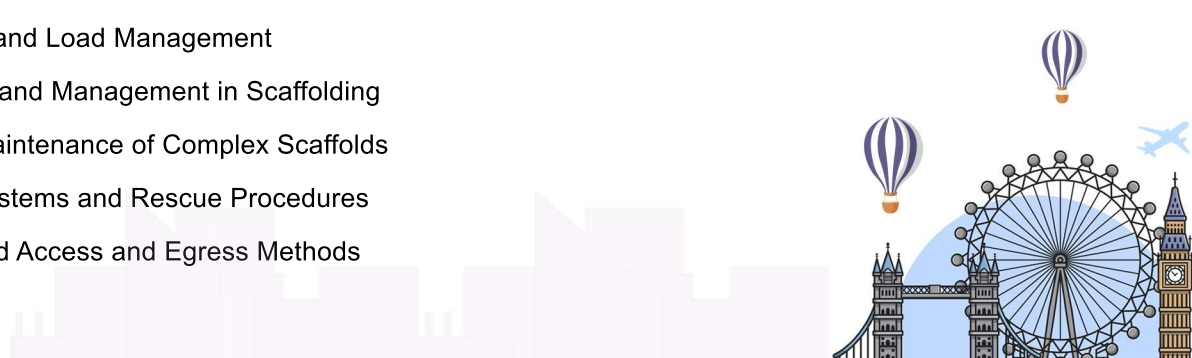

This certification is valid for a life time.

## Modules

The course modules for the Level 3 Award in Scaffolding Safety may include:

- Advanced Scaffolding Systems and Components
- Scaffolding Design Principles and Calculations
- Advanced Scaffold Erection Techniques
- Scaffold Stability and Load Management
- Risk Assessment and Management in Scaffolding
- Inspection and Maintenance of Complex Scaffolds
- Fall Protection Systems and Rescue Procedures
- Advanced Scaffold Access and Egress Methods

- Temporary Works and Structural Stability
- Scaffolding for Specialized Environments (e.g., confined spaces)
- Legal and Regulatory Framework for Scaffolding Safety
- Project Management in Scaffolding Operations

## Why Choose Us?

**Led by Industry Experts:** Learn from experienced height safety professionals.

**Practical & Real World Training:** Hands on exercises and case studies.

**Flexible Learning Options:** Classroom, online, blended learning.

**Essential for Workplace Safety & Compliance:** Helps prevent accidents and ensures regulatory adherence.

**Boosts Career Advancement:** Valuable for supervisors, managers, and trainers.
