

# Safqual Level 3 Diploma in Oil & Gas Management

## Overview:

The Level 3 Diploma in Oil & Gas Management is a comprehensive program designed to equip individuals with the knowledge and skills necessary to excel in management roles within the oil and gas industry. This diploma provides a deep understanding of the key principles, practices, and challenges specific to the oil and gas sector. Participants will explore various aspects of oil and gas operations, including exploration, production, refining, distribution, and marketing. Emphasis is placed on effective management strategies, regulatory compliance, risk management, and sustainability practices within the industry. Through a combination of theoretical learning, case studies, and practical applications, participants will develop the expertise required to navigate the complexities of the oil and gas industry and drive organizational success.

## Who need this qualification?

- **Aspiring Professionals in Oil & Gas:** Individuals looking to start a career in the industry.
- **Oil & Gas Workers:** Field operators, technicians, and engineers seeking management knowledge.
- **HSE & Compliance Officers:** Ensuring safety and environmental regulations in oil and gas operations.
- **Supervisors & Team Leaders:** Managing operations in upstream, midstream, and downstream sectors.
- **Business & Operations Managers:** Handling supply chain, logistics, and financial aspects of the industry.
- **Anyone Seeking a Career in Energy Sector Management:** Ideal for those wanting to specialize in oil and gas business operations.

### Duration:

The qualification has a recommended course duration of 6–12 months.

*Note:* However, the course duration may be increased to meet additional learning needs if required, but not reduced.

### Assessments:

The qualification is evaluated using assessments. To receive this qualification the learner must pass test with 70%.

### Validity:

This certification is valid for a life time
